

Dear FCC,

I am very concerned about the proposed rule change, 04-233.

As a regular listener to Christian radio and a viewer of Christian TV, I want the presenters to be able to speak from scripture without being by those who may disagree with a Christian world view. I believe this would be a violation of free speech as well as a violation of freedom of religion. Also, requiring additional staffing on the smaller stations would impose an undue burden on them and could result in their closure. This is also an attack on free speech and freedom of religion.

This is censorship and no less.

Thank you for your attention.
